To Whom It May Concern:

This letter is in response to building permit <u>B14004616</u>. The building permit application and plans indicate that the proposed work includes x-ray equipment that will need to be reviewed/registered with Maryland Department of the Environment, Air Quality Program, Air and Radiation Management Administration. If you have any questions you can contact the Air Quality Permits Program at (410) 537-3230.

Your building permit has been **approved** by this Department. I may be reached at (410) 313-1786 if you would like to discuss the project in more detail.

Respectfully,

Hank Oswald
