> RE: Building Permit #11524 Proposed Pool 1888 Woodstock Road

Dear Mr. Sauer:

Additional detail is needed before the above referenced Building Permit Application can be adequately reviewed.

We previously discussed the concept of an adjusted septic easement to allow the placement of a pool in a portion of the recorded sewage easement.

Before we could approve a specific proposal, it is necessary that an accurate site plan be generated. In addition to the house and pool location it should show the distance between the proposed pool and the installed septic system. The plan should also show the makeup area that would be added to the sewage easement.

If you have any questions relative to this matter, please call me at 461-9933.

Sincerely, / ,

Cray Willia
