(Demolition of existing structure, rebuild new SFD)

This is to advise that the Howard County Health Department recommends issuance of the demolition permit for the above referenced property.

The current well and septic location is unknown for this property. A new well was drilled (HO-15-0244) in June 2016 respectively. The Health Department is asking to be on site during the demolition of the structure to explore for possible well and septic components.

Current utility records show this parcel does not have access to public utilities. Future development on this property will require you to install the new well and/or septic system per Health Department requirements.

IF ANY WELL OR SEPTIC COMPONENTS ARE FOUND DURING SITE WORK, YOU MUST NOTIFY THIS OFFICE IMMEDIATELY!!
