RE: **Variance Approval**
1759 Woodstock Rd.
Woodstock, MD 21163

Dear Mr. Wanex,

The Department of Health has received your variance request dated September 10, 2008 for the above referenced property. This agency will grant **approval** of the variance provided that the proposed new underground propane tank is constructed no closer to the well than the existing propane tank; eighty-one and one half feet. Approval of a building permit will be granted by this Department provided that the site plan submitted with the building permit application is consistent with the site plan approved under this variance request. Any deviations from the site plan submitted with the request will be subject to further review by this Department.

Any questions regarding this decision may be directed to the Well and Septic Program of the Howard County Health Department.

Respectfully,

Michael J. Davis, R.S.
Assistant Director
Bureau of Environmental Health

DATE: 10 September 2008

TO: Howard County Department of Permits
Attn: Sara

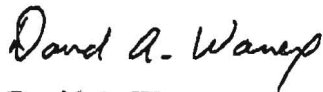

FROM: David A. Wanex
1759 Woodstock Road
Woodstock, Maryland, 21163

SUBJECT: Request Variance for new buried propane tank installation

According to the inspector's measurement this morning, the distance from our well cap to where the new propane tank will be installed is 81 feet.

As the homeowner, I would like to request a variance approval to install the new underground tank next to our existing tank on the property. Your assistance in approving this request for a variance and the building permit is greatly appreciated.

Sincerely,

David A. Wanex

Site Inspection

ADDRESS: 1759 Woodstock Rd.

PROPOSAL: To verify the location of the well on the property and its distance from the existing and new propane tanks

COMMENTS: Existing and new propane tanks are 81.5' from well.
