RE: Waiver Approval

4369 State Route 97 Brookville, MD 20833

Ms. Cuviello,

This letter is being issued in response to your waiver request dated May 22, 2018. This agency has approved the waiver to the required perc testing and Percolation Certification Plan. The approval is based on the fact that the proposed pole barn is on the opposite side of the house from the existing on-site sewage disposal system (OSDS) and the repair percolation testing performed in 2013 revealed suitable soil for an on-site sewage disposal system. The proposed twenty-four (24) by thirty (30) foot pole barn will have minimal effect on the area available for future OSDS repairs. Any deviations from the proposed work indicated on the building permit site plan will be subject to further review by this Department. Future living space additions will likely require perc testing and a Percolation Certification Plan.

Any questions regarding this decision may be directed to the Well and Septic Program of the Howard County Health Department.

Respectfully,

Michael J. Davis

Assistant Director

Bureau of Environmental Health

Note for Mr. Michael Davis

**Attachments:** 

Well Report 4396 Rt. 97 Brookville.pdf; Plat with garage.jpg

Dear Mr. Davis,

I am writing to request a waiver from the Percolation Certification Plan requirement for purposes of building a garage on my lot at 4396 State Rt. 97 in Brookeville, MD. It's a three acre lot. I bought the house in March and it doesn't have any storage for even a lawn mower. If I understand it correctly, the Plan Requirement Condition Survey would be approximately \$3,500, the site plan \$3,000, plus the cost for the perc tests. The permit I am applying for is for a pole barn and if I have to add this much money to the project it makes the project economically out of my range. The previous owner Tom Sargent/Warren Sargent had a new septic system installed including perc tests for a repair area, in 2013. The well was also inspected in 2013 (doc attached). The proposed pole garage would be on the opposite side of the house from the septic system.

Thank you so much for your time and consideration.

Best,

Karen Cuviello

Karen Cuviello
