RE: Percolation Testing
Walter Kone Property
Highland Road

Dear Mr. Kone:

Percolation testing conducted July 30, 1985 on the above referenced lot indicated satisfactory soil conditions.

Approval of the lot is contingent upon submission by a registered engineer of a plat showing certified test hole locations and a suitable house and well site.

This should be submitted within sixty (60) days to allow field verification if necessary.

If you have any questions relative to this matter, please feel free to contact me at the above address or by calling 461-9933.

truly yours,

Craig Williams, Director
Water and Sewerage Program
