Peter L. Beilenson, M.D., M.P.H., Health Officer

INFORMATION FORM – SEPTIC SYSTEM REPAIR / UPGRADE

Reason for Request:

A. Failing System (includes surface discharge or inadequate treatment zone)

Has the contractor verified through excavation/pumping evaluation that there are no pipe blockages? ☒

B. System relocation for proposed addition for setback compliance *

C. To replace a collapsed septic tank

D. To replace a collapsed drywell

****For REPAIRS, are the owners proposing, or do they plan to add in the future, any additions or modifications to the property, i.e. pools, living space additions, garages etc? This information must be disclosed at the time of this application. The Health Department will not be able to accommodate requests in the field for property modifications unrelated to the repair request. Such requests may require an additional fee, additional testing, and submittal of a Percolation Certification Plan, if the property does not meet current Code and Regulation.**

Septic Contractor:

Contractor's Address:

Contractor's Phone #:

Property Address:

Property (Subdivision) & Lot #:

County file #, if known:

Owner's Name and Phone #:

Is public sewer available/nearby:

If public sewer may be close, mention further research will be performed to verify availability

Names of any previous owners:

Year House Built:

of Existing Bedrooms:

of Bedrooms after completion of addition:

Has this request been discussed previously with another Sanitarian: _____ Name: _____

A Sanitarian will be in contact within three business days depending upon the urgency of the situation to coordinate the scheduling/review of the repair or upgrade.

Print out a copy of the Real Property Data via Dept. of Taxation website _____ Indexed file found _____

***Prior to scheduling inspections, scaled plans should be submitted to clarify the nature of the addition.**

If public sewer may be nearby, verify whether the sewer is technically "available" (defined as abutting or within the property), through the Bureau of Engineering (x2414).

If sewer is available, verify whether the property is within the Metropolitan District (Finance x2061).

If sewer is available, and property is within the Metropolitan District, connection to sewer is required. If owner believes reasons for exemptions exist, owner should justify request in writing.

If soil/site conditions are limiting and sewer and/or Metro District status not conducive to connection, Sanitarian may recommend pursuit of Emergency Sewer Extension or Emergency Metro District Inclusion. Owner should contact Charlotte Dryden, x4419, for further detail.

No permit is to be issued nor inspection to be scheduled without prior fee collection at the office unless an emergency situation exists. Contractor is to notify office of the emergency situation as soon as possible.

PRE-CONSTRUCTION:

6/19/2012 Did site inspection and took measurements to try to determine if a sand mound or two could be installed. There may be room for 1 mound but the contour is concave or low in the middle which is not what is preferred with mounds. Will have to consult with M.D.L. BB

INSTALLATION:

7/19/2012 Perc. testing done with Steven Krieg. BB
8/2/2012 Steve is going to send the homeowner a letter with repair recommendations. BB

FINAL INSPECTOR DATE OF APPROVAL

Howard County Health Department

To:

File

Property has history of a shallow water table. Property has been evaluated ^{for sand mound} by previous experienced sans.

Property is currently on a holding tank which is not recorded or approved.

Owner reluctant to spend money w/ RT 32 expansion pending. He would be open for installing a ^(matt Smith) conventional system if possible.

ADDITIONAL NOTES:

**AGREEMENT AND EASEMENT
FOR
INSTALLATION OF A
SEWAGE HOLDING TANK SYSTEM**

THIS AGREEMENT is made this _____ day of _____, 2012, between and among the Maryland Department of the Environment, the _____ County Health Department, Environmental Health Division (hereinafter referred to collectively as the "Department") and _____ (hereinafter referred to as "Owners").

WHEREAS, Owners are seized and possessed of a tract of land located in the _____ Election District of _____ County, Maryland, the deed to same being recorded among the Land Records of _____ County, Maryland, in Liber _____, Folio _____ (Parcel _____ and _____ on Tax Map _____).

WHEREAS, Owner's land is unsuitable for the installation of a conventional, alternative or innovative on-site sewage disposal system and Owners desire the Department's approval to install a holding tank system of sewage disposal.

WHEREAS, this land qualifies as a site for a sewage holding tank under the provisions of the Code of Maryland Regulations, Title 26, Subtitle 04, Chapter 02.

NOW, THEREFORE, the parties hereto agree as follows:

A. Owners hereby grant the right to the Department to enter upon the property at any reasonable time for access to the system to make periodic inspections, as well as to provide any information and data requested and needed by the Department to develop accurate and thorough records.

B. Owners agree that there shall be no liability on the part of the Department if this holding tank system malfunctions and that the Department does not warrant or guarantee that the system will adequately or properly function.

C. Owners acknowledge and agree that neither the Department nor any of its agents or employees, either officially or individually, underwrites the operation of any system approved by them.

D. The Owners will devote such care and effort to the maintenance of the system so that a system malfunction does not occur.

E. The Owners agree that, should the system be determined by the Department to pose a threat to the public health, safety or comfort, and should the Department therefore, order any necessary changes or corrections, the Owners agree to pay for all such changes or corrections. System modifications may include requirements for additional tanks and/or more frequent pumping of the holding tank(s).

F. The Owners shall contact the _____, at least 24 hours prior to system completion so that the Department may inspect the system in the field with the installer. The Owners further agree that this system will be installed according to plans and specifications approved by the Department and any changes determined to be necessary by the Department as a result of reviewing the field conditions.

G. This agreement shall run with the land and binds the Owners, their heirs, successors or assigns. Owners further agree that they shall inform any purchaser or lessee of the property that the system will require regular maintenance or other attention. The Owners agree to record this Agreement in the land records of _____ County and will forward a copy of the recorded agreement to the Department prior to the issuance of the permit for the holding tank installation.

H. This Agreement shall not be construed to limit any authority of the Department to protect the public health, safety or comfort or to issue any other orders or take any other action, which is now or may hereafter be within its authority.

I. Owners certify that they have obtained a cost estimate and are financially capable of having the sewage removed from the holding tank by a permitted sewage waste hauler on a regular basis so that the holding tank never overflows. The Owners further agree to enter into and maintain a written service contract which will be renewed annually with any permitted scavenger and will forward a copy to the Department prior to the approval of the permit for the holding tank installation and annually thereafter.

J. If the Owners install any plumbing, they shall install only water conserving fixtures (e.g., toilets installed will use no more than 1-1/2 gallons of water per flush).
