Notes

1. All existing wells on the subject property and within 100 feet of the subject property boundaries and 200' down gradient of any wells and/or septic systems have been shown to the best of my knowledge and belief.
2. The existing wells and septic areas shown on the plan are from the current Percolation Certification Plan (Vogel, 6/2018) and On-site Sewage Disposal Plan (Vogel, 5/2020) on file as provided by the Health Department.
3. Topography on this drawing is taken from the current Percolation Certification Plan (Vogel, 6/2018) and On-site Sewage Disposal Plan (Vogel, 5/2020) and is verified to accurately represent the relative changes on the subject property.
4. The lot shown hereon complies with the minimum ownership width and lot area as required by the Maryland Department of Environment.
5. Any changes to a private sewage area shall require a revised Percolation Certification Plan.

6. This area designates a private sewage area of at least 10,000 sq. ft. as required by the Maryland Department of Environment for individual sewage disposal. Improvements of any nature in this area are restricted. This area shall become null and void upon connection to a public sewerage system. The County Health Officer shall have authority to grant adjustments to the private sewage area. Recordation of a revised sewage area shall not be necessary.
7. The purpose for this Revised Percolation Certification Plan is to adjust the existing sewage area to accommodate the relocation of on-site dry wells to permit the construction of an in-ground swimming pool and pavilion.

I certify that the information shown hereon is based on work performed in my presence or by my direction, and is correct to the best of my knowledge and belief.
