IF GARBAGE GRINDER IS USED INCREASE SEPTIC TANK CAPACITY BY 50% AND ABSORPTION AREA BY 22%.

GARBAGE GRINDER? YES ☒ NO ☐

SEPTIC TANK CAPACITY 1500 GALLONS NUMBER OF BEDROOMS 3

BUDG. PERMIT SIGNED
AND RETURNED 4/24/87
Final # 57906
1 Story addition

TRENCHES - 293 sq. ft. per bedroom with garbage disposal. Trench to be 3 feet wide. Inlet 24 feet below original grade. Bottom maximum depth 44 feet below original grade. Effective area begins at 24 feet below original grade. 2 feet of stone below distribution pipe.

LOCATION - Place the distribution box 150 feet from the back lot line and 20 feet from the left lot line as seen when facing the property from Thompson Drive. Run trench(es) along contour toward left-rear corner of property. Trenches not to exceed 75' in length.

NOTE - No trench to exceed 100 feet in length. Provide 6" - 8" diameter cleanout and cap to grade or above on septic tank. ok/cw

PLANS APPROVED BY C. Williams DATE 7/20/87

COVER NO WORK UNTIL INSPECTED AND APPROVED

NEITHER THE HOWARD COUNTY COUNCIL NOR THE HEALTH DEPARTMENT IS RESPONSIBLE FOR THE SUCCESSFUL OPERATION OF ANY SYSTEM.

NOTE: CLEANOUT REQUIRED EVERY 70 FEET OF SEWER LINE AND AT TOP SWEEPS IN LINES FROM HOUSE TO DRAIN FIELDS

NOTE: ALL PARTS OF SEPTIC SYSTEMS (I.E. TANK DISTRIBUTION BOX TRENCHES) TO BE 100 FEET FROM WELL (UNLESS OTHERWISE SPECIFICALLY AUTHORIZED)

NOTE: IF DEEP TRENCHES ARE USED CALL FOR INSPECTION BEFORE AND AFTER PLACING GRAVEL IN TRENCHES

NOTE: NO DRY WELL SHALL EXCEED 15 FOOT IN DIAMETER. NO ABSORPTION TRENCH TO EXCEED 100 FEET IN LENGTH

NOTE: ALL PIPE FROM HOUSE TO SEPTIC TANK MUST BE CAST IRON OR SCHEDULE 40 PVC OR ABS

PERMIT VOID AFTER TWO YEARS

BUDG. PERMIT SIGNED
AND RETURNED

NOTE: INSTALL STAND PIPE ON SEPTIC TANK AND DRY WELL. STAND PIPES MUST BE 6 INCHES IN DIAMETER. CAST IRON, CONCRETE OR TERRA COTTA OR PVC OR ABS ACCEPTED IF TOP OF SEPTIC TANK IS DEEPER THAN 1 FEET. MANHOLE TO GRADE REQUIRED

NOTE: DISTRIBUTION BOXES MUST HAVE RAFFLES

BUDG. PERMIT SIGNED

2665 Thompson Drive
Marriottsville, Maryland - 21104
March 19, 1987

Mr. Craig Williams
Bureau of Environmental Health
P.O. Box 476
Ellicott City, Maryland - 21043

Dear Mr. Williams:

As a result of our telephone conversation on March 18, 1987 I've decided to put my thoughts down in this letter for your records. We have occupied the property located at 2665 Thompson Drive since June of 1971. The following spring prior to Agnes, our septic system failed and had to be replaced. When the application was made to the Howard County Health Department for a permit to install a septic system, it was discovered this lot failed its original perc test, yet a building permit was issued to build the house. Since we were the third owner, we assumed Howard County was doing its job and saw no need to see if this house was "legal." Needless to say we were very upset about the situation in the "buyer beware" world at that time as we saw our investment in our "country estate" become worthless.

We then worked with Mr. Wine of the Health Department and ran a percolation test at the highest point on our lot and water was discovered at eight feet. Mr. Wine knowing the predicament we were in approved an oversized drainfield in the back of our lot as far from the well as possible. He was concerned with the septic system contaminating our well, which is a shallow well only 45 feet deep. We have lived here these past 15 years always fearful of this problem. We know the water table is very high in the area because of the many spring heads. The Agnes storm developed such hydraulic water pressure to completely submerge our pump and water tank and came to within one foot of the ground surface. The Health Department advised us to add chlorine to our well after the surface water had subsided to destroy any bacterial contamination. The Health Department also had given us some confidence that the lot in question would probably not pass the perc test due to the high water table in the area. I'm sure if you check your records this has been historically true due to the many tests performed on that lot and the five acre lots adjoining the back of our lot.

In addition the severe drought conditions the past two summers have affected the springs on the property. We feel this condition is truly temporary and after normal conditions prevail this perc test would fail.

After our conversation I was fearful that the possibility of a septic system being located on the adjacent lot could be a possibility. This has brought back all of our fears and concerns that we thought were settled. With the added fear of the landfill, which we fought against, this septic system, and our very own septic system, we feel strongly that this septic system could jeopardize the quality of our water.

Mr. Craig Williams

With regards to the desire of the present owner, Mr. Buksa, to sell the property, we would be willing to entertain discussions to purchase the lot. It wasn't until the perc evidence that we realized his situation. After discussing it with Pricilla Geisler, our neighbor, she told us of Mr. Buksa's attempt to sell her the lot last fall. Unfortunately, we knew nothing of his offer. We feel it is only fair to Mr. Buksa to purchase the lot from him for a fair price at this time to prevent a long series of delays that will occur as a result of our concerns.

In summary please regard this letter as a list of concerns from us for the approval of a septic system on Mr. Buksa's lot. The Health Department has to make many critical decisions regarding water quality, but by putting two septic systems in close proximity to an existing well, we feel you should be conservative in any decision you render.

Yours truly,

Daniel J. Cichetti Barbara Cichetti
