> RE: Well Permit Issuance Springdale, Lot 13 13505 Silent Lake Drive HO-94-1744

Dear Mr. Bucklow:

This letter is to confirm details discussed at the site inspection on September 14, 1998.

The referenced well permit was issued subject to its use solely for domestic irrigation.

Prior to any reconsideration of this restriction to allow this well to be used as a potable supply, please submit a written evaluation by a licensed well driller as to the condition and potential for remediation of the existing potable well HO-94-0782.

If the well driller's review indicates that the existing well is not usable as a potable supply, then first consideration for a replacement well would be given to higher locations not impacted by any uphill sewage easements. Consideration of the original proposal or similar locations would only be undertaken after all potential uphill locations have been eliminated. Review of any downhill proposals is contingent upon approval from the Maryland Department of the Environment, granting of which is not certain.

If you have any questions or are not in agreement with the conditions as set forth in this letter, please contact this office at (410) 313-2640 to resolve these concerns before drilling this well.
