II. Waiver Request

In accordance with Section 16.104 of the Howard County Subdivision and Land Development Regulations, the Department of Planning and Zoning, in conjunction with the Subdivision Review Committee may grant waivers or modifications to the minimum requirements stipulated within the Regulations if it is determined that extraordinary hardships or practical difficulties may result from strict compliance with the regulations, or if it is determined that the regulations may be served to a greater extent by an alternative proposal.

In the area below, the petitioner shall enumerate the specific numerical section(s) from the Subdivision and Land Development Regulations for which a waiver is being requested and provide a brief summary of the regulation. Attach a separate sheet if additional information is appropriate.

	Section Reference No.	Summary of Regulation
1.	16.120(b)(a)(iii)(b)	LA LOVAT. ELVICONSENTAL FEBRURES
2.		OULAS.
3.		
5.		
4.		
5.		

III. Justification (if additional space is needed for justification, please attach to the application)

All waiver requests must be fully justified by the petitioner. Incomplete or inadequate justification may result in rejection of the application. Justification must be specific to the subject property. The justification provided by the petitioner should include all factors which rationalize or substantiate the request in accordance with the following criteria:

- a. Summarize any extraordinary hardships or practical difficulties which may result from strict compliance with the Regulations.
- b. Verify that the intent of the Regulations will be served to a greater extent through the implementation of the alternative proposal.
- c. Substantiate that approval of the waiver will not be detrimental to the public interests.
- d. Confirm that approval of the waiver will not nullify the intent of the Regulations.

IV. Plan Exhibit

A. Number of Copies Required

The waiver petition application must be accompanied by copies of a detailed plot plan, subdivision plat or site development plan (<u>14 sets of the completed waiver application and plan exhibit if the subject property</u> <u>adjoins a County road; 18 sets for properties adjoining a State road</u>). In instances where the waiver request concerns an approval extension or if an associated plan is in active processing, only 2 sets of plans are required along with 14 or 18 copies of the application form. Plans must be folded to a size no larger than 7-1/2" x 12".

B. Plan Requirement Checklist

The detailed waiver petition exhibit, plot plan, subdivision plan or site development plan must indicate the following required information relevant to the waiver request to ensure acceptance of the waiver petition application for processing.

Legend: <u>/</u> NA	Information Provided Not Applicable	<u>_X</u>	Information Not Provided, Justification Attached
---------------------	--	-----------	---

III. Justification

The purpose of this waiver request is to allow wetlands, floodplain, intermittent stream and associated buffers to be located on the two proposed lots. Currently these features exist on Dunfretten Estates Lot 26, which is proposed to be resubdivided into two 3-acre lots. Since the proposed lot will derive its access from Triadelphia Mill Road, there are no necessary or proposed disturbances to the environmental features. It is apparent from the recent Regulation change there is recognition that environmental features can exist on lots 20,000 square feet and greater. Since the proposed lots are approximately 3 acres, the environmental features can exist with the construction of one additional home. The resubdivision plat would record and protect all environmental features and corresponding buffers.

The granting of this waiver will not nullify the intent of the Regulations since all environmental features and buffer will be protected. The public's health, safety and welfare will not be compromised.

- 1.
- Vicinity map scale 1" = 2,000' indicating and identifying the total boundary of the property, exact site Bearings and distances of property boundary lines for the entire tract and size of tract area. 2.
 - 3.
 - 4.
 - Location, extent, boundary lines and area of any proposed lots. Any existing or proposed building(s), structures, points of access, driveways, topography, natural 5. features and other objects and/or uses on the subject and adjacent properties which may be relevant
 - to the petition; i.e. historic structures, cemeteries or environmentally sensitive areas.
- Delineation of building setback lines. 6. V 7.
- Delineation of all existing public road and/or proposed street systems. . / 8.
- Identification and location of all easements. V 9.
- Approximate delineation of floodplain, wetland and forested areas, if applicable. N/A 10. Road profile to evaluate sight distance, if the application includes a request for direct access to a
- major collector or more restrictive roadway classification. 11. Any additional information to allow proper evaluation (e.g. for waivers to wetland buffers an
 - alternative analysis and mitigation proposal are needed; for waivers to SDP requirements where there is no subdivision of land, an APFO Roads Test evaluation may be needed).
 - 12. Photographs, perspective sketches or cross-sections as necessary to adequately portray the waiver
- / 13. The exhibit plans should be highlighted to accurately illustrate the requested waiver(s) to allow proper evaluation (i.e. proposed grading, tree clearing or other disturbances within environmentally sensitive areas or buffers).

V. Fees

The Waiver Petition application fee shall be in accordance with the adopted fee schedule. All checks shall be made payable to the Director of Finance. The petition will not be accepted for processing until the fee has been paid. Incomplete, incorrect or missing information may result in the rejection of the application and could cause additional time to be required to revise the petition for resubmittal and re-review. For more information or questions, contact DPZ at (410) 313-2350.

VI. Owner's/Petitioner's Certification

I/WE the undersigned fee simple owner(s) hereby make application to the Howard County Department of Planning and Zoning to relax the minimum requirements of the Howard County Subdivision and Land Development Regulations. The undersigned hereby certifies the information supplied herewith is correct and complete, confirms that the regulations and policies as referred to in the attached are understood, and authorizes periodic on-site inspections by the Howard County Subdivision Review Committee agencies. *If the applicant is the owner's agent, written documentation from owner granting that authority is
