### TO ALL INTERESTED PARTIES

When submitting a well permit application for a proposed well for new construction, please indicate one of the following:

- The well site has been staked by 12-22-10,  
(professional land surveyor or company employing professional land surveyors)  
on \_\_\_\_\_ (date) and does not require a site inspection.
- The well driller, builder or property owner will call the Health  
Department to schedule a time to meet in the field to verify the  
proposed well site location.

This sheet, along with two copies of an acceptable well site plan, must be attached to the green well permit application.

Revised 6/10/03

## Davis J., Michael

**Subject:** RE: FW: Metropolitan District Incorporation

The Health Department went to the property this morning to investigate the failure. The property owner indicated that he snaked about 30 feet of the line and the system is now functioning. There were no visible signs of failure. He no longer pursuing a public sewer connection.

December 3, 2010

There is an 8-inch sewer constructed under contract 14-4080-D located in Landing Road that can provide gravity sewer service to the property.

Don

Good Morning,

Attached is a string of emails between me and the owner of the property located at 5041 Landing Road, Elkridge, MD 21075, TM 31, Parcel 608, Grid 17 for emergency incorporation. Please evaluate and respond to me today, if possible.

Thank you.  
Charlotte Dryden

Mr. McCarthy,

Please contact the Environmental Health Department on 410-313-2640 and ask for Dana Bernard or Bert Nixon. Tell them your situation and have them evaluate your need for an Emergency Incorporation. If, after their inspection, they say that it qualifies for an emergency, I can try to process the incorporation according to the EMERGENCY PROCEDURES sent to you in my original email.

Thank you and hopefully I will hear from you today. In the meantime, I will advertise the project for routine administrative decision just in case.

Charlotte,

I have attached the signature page of the documents. I spoke with my septic guy and he does not feel I should leave my septic system until January 3rd. He mentioned the backup could be caused from a large Juniper tree's root cracking the old cast iron pipe, causing the waste water to seep out (house on well water). My wife and I are not from Maryland and do not have any local place to stay besides our residence. Not being able to use any water until January 3rd will be very difficult. Is there anyway we could expedite? Please let me know if you need any other information.
