**RE: Waiver Approval**  
777 Gaither Road  
Sykesville, MD 21784

Mr. Hardesty:

This letter is being issued in response to your waiver request dated May 9, 2014. This agency grants **approval** of the waiver to the required Percolation Certification Plan as required by the *Howard County Code, Subtitle 8, Section 3.805*. The waiver has been approved on the basis that the proposed pool is within one hundred feet of the well and the area is not useable for future on-site sewage disposal. A waiver to the ten foot setback from the proposed driveway to the sewage disposal area has also been approved. Any deviations from the site plan submitted with the request will be subject to further review by this Department.

Any questions regarding this decision may be directed to the Well and Septic Program of the Howard County Health Department.

Respectfully,

A handwritten signature in cursive script, appearing to read 'Michael J. Davis'.

Michael J. Davis, R.S.

Howard County Bureau of Environmental Health

Attn: Mr. Mike Davis, Assistant Director

Dear Mr. Davis:

RE: Requesting waiver of Percolation Test and offset to sewer field

Attached please find a plot plan of our home at 777 Gaither Rd., Sykesville, MD. 21784 (Howard County). We are requesting a Waiver of Requirement for Percolation Certification and offset to Sewer Easement.

My wife is retired and I have a part time job and would be unable to afford another percolation test. I am retiring soon and we want to erect a pole barn for my hobby. I restore old boats as well as need space to store my existing boats, lawn mowers, etc. We need to install a new driveway in order to gain access to this building and will have to run the driveway adjacent (not on) the sewer easement to prevent removing eight 20' pine trees.

I would appreciate your response.

Thanks,

A handwritten signature in black ink, appearing to read "Ronald Hardesty", written in a cursive style.
