This is to advise that the Howard County Health Department recommends issuance of the demolition permit for the above referenced property.

There is currently no water or sewer plumbing inside the barn. If plans to connect water and/or sewer to the new barn, a minor septic repair permit must be issued by our office that is with in compliance with Howard County code.

If any wells or septic systems are found during site work, you must notify this office immediately!

Jeff,  
Your demolition request has been received and in review. Do you know if the barn has utilities connected to it? (i.e. well and/or septic inside the barn)

If so, this will need to be capped off prior to demo release and may require site inspection.

Thanks,

Kevin M. Wolf, R.S., R.E.H.S.
