ATTENTION WELL DRILLERS!!!

When submitting a well application for a new or replacement well, please indicate one of the following:

ď	The well sites has been staked by FSH ASSOC
	on 9-22.06 and is ready for site inspection.
	will call the Health Department
	for a time to meet in the field to verify a well location.
	Site plan for new well is attached to well permit application.

Please attach this sheet when submitting your green application. This should help improve communication allowing a more timely service for our citizens.

> RE: Coleman Property, Lot 2 13102 Williamfield Drive Ellicott City, MD 21042 BP #: B07001636 Well Permit # HO-95-0534

Dear Sir:

This is to advise you that the septic system for the above referenced property has been installed and inspected. Final approval of the septic system was granted on 05/02/2008. Final approval of the well line connection to the dwelling was approved on 04/03/2008.

The water sample results indicate that the water samples submitted for testing were free of coliform and fecal coliform bacteria at the time of sampling and are bacteriologically safe for drinking. The water sample results were found to be in compliance with COMAR water quality standards.

INTERIM CERTIFICATE OF POTABILITY

This certifies that the initial sampling requirements of COMAR 26.04.04 "Well Regulations" have been met for the water supply system installed under well permit #HO-95-0534. Although the submitted sample results are in compliance with COMAR standards, the Health Department does not guarantee water supplies. Based upon satisfactory investigation and evaluation, the Howard County Health Department as authorized by the Maryland Department of the Environment accepts this well system as required by COMAR 26.04.04.

This certificate may become final upon completion of the second bacteriological test, which is to be taken by the county health department within six months of receipt of this letter. Please contact (410) 313-1792 to schedule a final water sample appointment. Currently, there is no charge for this final sampling.

Date of Water Sample(s):

07/03/2008 & 07/07/2008

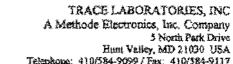

Date of Well Completion:

10/24/2006

5745KC

Residual Cl₂ <0.1 mg/L: Yes

Well Tag Number: Well Condition:

HO-95-0534 2-Piece Cap

Satisfactory

Water Conditioning/Treatment: None

PARAMETER	RESULT	METHOD	MCL/*SMCL	
Nitrate	5.7 mg/L as N	SM 4500D	10 mg/L as N	Pass
Turbidity	1.7 NTU	EPA 180.1	10 NTU	Pass
pН	5.9 Units	EPA 150.1	•6.5-8.5 Units	***
Sand	Negative		Negative	

Manager-Drinking Water Testing

MCL=Maximum Contamination Level

^{*}SMCL=Secondary Maximum Contamination Level

^{***}A non-enforceable parameter that may cause cosmetic effects or aesthetic effects (such as taste, color or odor) in drinking water.
