**DATE:** November 1, 2018

**RE:** 14671 Viburnum Drive  
Dayton, MD 21036  
M. 27 G.16 P. 016- 18.126AC  
(Demolition of existing sfd – rebuild new SFD)

This is to advise that the Howard County Health Department recommends issuance of the demolition permit for the above referenced property.

The current drilled well (HO-81-0775) that was utilized for the above referenced property was capped off at the well head on 10/25/18. This was verified in the field by the Health Dept. This well will be utilized for irrigation only. A new well (HO-17-0218) was drilled for use for the new SFD.

The current septic system (tank and trench) was properly located and abandoned. The system components were pumped out on 10/25/18 (respectively). That same day the Health Department verified the plumbing disconnect and the existing septic tank collapsed on site. This process was completed by South Carroll Backhoe on 10/25/18. Plans to rebuild on this parcel will require a percolation certification plan per Howard County Code.

**IF ANY WELL OR SEPTIC COMPONENTS ARE FOUND DURING SITE WORK, YOU MUST NOTIFY THIS OFFICE IMMEDIATELY!!**
