Mr. Norris E. Pool  
7351 Washington Boulevard  
Elkridge, Maryland 21227

Re: F-75-18 Norris E. Pool Property  
at Hanover Road

Dear Mr. Pool:

The Division of Land Development and Transportation Planning of the Howard County Office of Planning and Zoning, on May 21, 1975, approved the final subdivision plat of Norris E. Pool consisting of three(3) lots on 9.38± acres of land located on Hanover Road in the First Election District of Howard County, Maryland.

Approval of this plan or plat is subject to the following conditions:

1. Showing the road dedication of 30' from centerline of Hanover Road and 25' from centerline of Winters Lane to Howard County.
2. Approval by Howard County for use of private water and private sewerage systems. Final plat cannot be accepted until written approval from the Health Department is received.
3. Owner petitioning Howard County for correction to "1971 General Plan of Highways" since it appears, per Dept. of Public Works letter dated May 8, 1975, that parcel is not affected by the South Hanover Road project.

In addition to the above, the following items should be added and/or corrected on the plan:

1. On the signature block for the Director's signature, an asterisk shall be provided after the work "Approved" referring to the following notes:

- (a) \*Lot 1 and 2 - Public Water and Public Sewer. Public sewer facilities do not exist as of the date of this recording, but will be made available upon completion of Captital Project S-4-6036, Contract 649-S.

Mr. Norris E. Pool

-2-

May 21, 1975

Re: F-75-18 Norris E. Pool Property  
at Hanover Road

(b) \*Lot 3 - Private Water and Private Sewer.

2. Remove the note on the lower right corner referring to public sewer facilities.
3. Add Owner's name to title above "Lots 1, 2 and 3".
4. Correct "Building Restriction Line" from corrected right-of-way line.
5. Remove all other building restriction lines not required.
6. Add area of road dedication to tabulations.

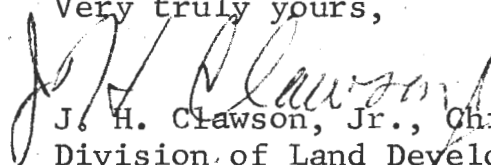

Compliance with the above is required before the Planning Director's action becomes final and final plans can be submitted for signatures of appropriate County agencies.

Distribution copies of the approved plan are the responsibility of the applicant and will be reproduced for distribution by this office and payment of \* \$13.80 will be required by the owner prior to our acceptance of the originals for signature. When received, the signed original tracing will be retained on file in the Office of Planning and Zoning.

Should you have any questions relevant to the above, please contact this office.

\* 3 @ \$3.00 = \$9.00  
12 @ \$ .40 = \$4.80

Very truly yours,

Attention: Mr. Monaghan

Re: Application for Sewage Disposal  
Testing, Lot 3 of Subdivision  
of Norris E. Pool, at Winters  
Lane and Hanover Road

Dear Sir:

Pursuant to our telephone discussion with you today, we enclose herewith our check payable to "Howard County Health Department-Sanitation", for \$30.00, to cover the cost of enclosed application for sewage disposal testing on Lot 3 of this proposed subdivision.

We also enclose for your information copy of letter of Office of Planning and Zoning dated May 21, 1975, attached to application which letter advises the owner in Paragraph 2 he must have "Approval of Howard County for use of private water and private sewerage systems. Final Plat cannot be accepted until written approval from the Health Department is received".

We call your attention to the fact that there are homes built years ago on Lots 1 and 2 of this subdivision, both these now have public water, but use private sewage disposal systems, and we understand no percolation test is required for these two lots. However, Lot 3 is unimproved and no improvement is contemplated in near future; we presume it will connect to public water if available when required in the future, and that it now needs approval for subdivision purposes for private sewage.

We are preparing our final plat and are ready to file it for final approval; therefore, there is some urgency to have the approval of your office. We will appreciate your earliest assistance. After your test and approval of Lot 3, please give your written approval of the subdivision to Planning and Zoning Office as required by its letter of May 21, 1975.

Please communicate with us if you require any additional information or have any questions.

Very truly yours,

WINTER AND BOWEN

Re: Sub-Division F-75-18  
Norris E. Pool Property at  
Hanover Road and Winters Lane  
Approval of private water and  
sewerage systems

Dear Sirs:

We are writing on behalf of Norris E. Pool, owner and sub-divider of above property. Please refer to our prior letters of June 11, 1975, and September 24, 1975, regarding testing of Lot 3 of this Sub-Division.

We now understand this proposed plat is not acceptable to you because two of the prior percolation test holes were made in the area reserved for future R/W of S. Hanover Road. We are now advised you will require four new percolation test holes to be dug so that none of the test holes will be in the right of way area.

We are authorizing Mr. Roland Barth to dig these new holes and to arrange directly with your office for the tests of the new holes.

We paid \$30.00 with our original application; however, if additional fees are involved to make the new tests, please advise us so we can forward whatever is required.

Thank you for your prompt assistance.

Very truly yours,

WINTER AND BOWEN

Re: Sub-Division F-75-18  
Norris E. Pool Property at  
Hanover Road and Winters Lane  
Approval of private water and  
sewerage systems

Dear Sirs:

We are writing on behalf of Norris E. Pool, owner and sub-divider of above property. Please refer to our prior letter of June 11, 1975 regarding testing of Lot 3 of this Sub-Division.

In accordance with my telephone discussion with Mr. Skinner of your office on September 23, 1975, we understand that your office has now completed its testing and evaluation and will now approve this Sub-Division for use of private water and private sewerage systems, provided the owner agrees to connect the private sewerage system of Lot 1 to the proposed public sewerage system as soon as it is available. Accordingly on behalf of Norris E. Pool, it is hereby agreed that if this Sub-Division is approved by your office as above, he will cause the private sewerage system of Lot 1 to be connected to the public sewerage system as soon as same is installed and available for hook up.

We understand that you will require certain additions to the proposed Sub-Division Plat to show the test holes or private sewerage systems before final approval. We have advised Mr. Gary Watts, of Evans, Hagan & Holdefer, Inc., surveyors and engineers, who is preparing this Plat to communicate directly with you so all such changes to the Plat for Lots 1, 2 and 3 can be done according to your direction.

Please advise the Office of Planning & Zoning of your approval of this Sub-Division so the final Plat will be acceptable and can be filed as soon as possible.

WINTER AND BOWEN

Howard County Health Department
