## Oswald Jr, Woodin

---

**From:** Oswald Jr, Woodin  
**Sent:** Wednesday, March 6, 2024 7:56 AM  
**To:** Beth Galloway  
**Subject:** RE: B24000659  
**Attachments:** as built.pdf

Hi Ms. Galloway,

Good morning. I've been assigned this permit # B24000659 to review after all.

Please revise the site plan to show the correct orientation of the septic tank and SHC (see attached as-built drawing for more details). Also, change the scale to 1:50 which it appears to be anyway. In general, the well and septic program only accepts site plans with the following scale; 1:20, 1:30, 1:40, 1:50, or 1:60 scale.

Let me know when you've uploaded the revised site plan to the system, and I will approve the BP. Should you have any questions, please don't hesitate to ask.

Thanks,

Hank

Hey Hank -

Can you also take a look at this permit for a pool. It's been sitting in Health waiting for a bit now. The pool isn't close to anything so I'm hoping it can be issued soon.

Thanks so much!!!!

Thank you,

*Beth Galloway*

PRE-CONSTRUCTION:

5/5/17 Met Freedom on site for layout. All SDA stakes present, no tank stake. Fill in upper part of SDA, ~2'. Builder came to site - he will remove fill in SDA + uncover sewer line at house. Check fall to tank and verify  $\leq 3'$  tank cover once fill is removed + line uncovered. (S)

5/15/17 SHC exposed, elevations shot in field. Sewer coming out under footer under porch, house dropped 2 1/2" will not make fall to 0' inlet into trench. will need to hang sewer or put in pump tank w/

INSTALLATION: revised plan. 5/19/17 Met contractor and build on site. Sewer location revised. Plan revision rec'd from engineer. Hung sewer proposed on right side of garage. Plenty of fall. Install 3x40' trenches per plan. Keep trenches square w/ upper SDA line to keep from proposed switch pan

5/26/17 System installed line from house to tank has 20' 6" sleeve under driveway. Need house connection. Levelled speed levelers in D-box T3 left open for inspection. T1 + T2 covered. 1.5-2' stone in T3 (has more stone than T1 + T2, according to Freedom). Need caps on observation pipes. (S)
