SHROUD
For 500 & 1,000
gallon tanks

SHROUD
For 120, 250
& 320
gallon tanks

PRESSURE VESSEL CODES & REGISTRATION

- Designed and constructed in accordance with the ASME Section VIII, Division 1 Code
- Registered with the National Board of Boiler & Pressure Vessels Inspectors
- Complies with NFPA 58
- Conforms to specifications set forth by the Railroad Commission of Texas

PAINT SPECIFICATIONS

- Epoxy powder paint for maximum rust protection
- Tanks painted gray
- Ready to bury durable epoxy powder coating†

SHROUD FEATURES (500 & 1,000 gallon)

- Durable construction
- Large opening for easy filling and maintenance
- Recessed markers to indicate proper burial depth
- Permanent hole for mounting location flag
- Access on sides for flexible riser connection
- New shroud available for 500 gallon and 1,000 gallon UG tanks, shroud dimensions:
 - * Shroud for long riser 32 3/16" X 26 5/16"
 - * Shroud for short riser 19 3/8" X 26 5/16"

VESSEL FEATURES

- Tanks fully fitted with RegO valves and Rochester liquid level gauges
- Container pressure rated at 250 PSI @ 400°F
- Vacuum purged
- Duplicate data plate is zip tied on the riser pipe below the anode bolt connection for convenience
- Product is offered with 14" short or 28" tall risers
- Anode bolt connection located under the dome
- Short or tall plastic shroud assemblies (w/lid) supplied accordingly
- #54 liquid level outage valve orifice

PROCESS CONTROL

All welded products are x-rayed and pressure tested @ 325 PSI per ASME Sec VIII, Div 1 requirements, followed by rigorous leak test inspections, both pre and post valving

Look at these permits. Who is the builder (assuming this is new construction), contact builder and we will suspend all trade inspections until issues are resolved I applicable.
LMK.

Subject: RE: Brickell Way - LP tank installs without permits - Thompson Gas (Brickell Property Subdivision)

Michelle, I completed site inspections for the 8 bp's that were submitted for lp tank installs at the properties in this subdivision. So far, I'm finding some issues with ones that have already installed without a permit.

B25005272 – 1730 Brickell Way – this is one that's already been installed and if the scale is right on the plan you submitted with the building permit, it's less then 50' away from the well box on the neighboring property – please follow up on this one with either having them dig it up and move it, check the scale on the plan (make sure it's right) or fill out the County waiver request form.

B25005266 – 1711 Brickell Way – Thompson Gas was onsite yesterday installing the lp tank in a different location than you have it on the submitted plan – provide a revised plan for review as soon as possible

B25005267 – 1719 Brickell Way – the plan isn't showing the onsite septic system for the property and the proposed location for the lp tank on the plan you submitted is in close proximity to the septic tanks. Please get the septic tanks and setback on the plan and resubmit.

B25005273 – 1727 Brickell Way – lp tank was installed as of 12/1/2025 prior to permit release.

B25005271 – 1731 Brickell Way – lp tank was installed as of 12/1/2025 prior to permit release.

1734, 1735 and 1739 Brickell Way – lp tanks not installed yet and the bp is still under review.

If you have any questions or concerns, please don't hesitate to reach out.

Ryan

Oh thanks!

I had no idea they started with out them...

Please keep me posted in what's next.

Thank you in advance for all your help.

Michelle, I was out to the site of the subdivision today. Thompson Gas was onsite installing the propane tanks before the release of the permit. Most of these have already been installed. I'll need to speak with my supervisor and DILP before anything else is done on these reviews.

Good Afternoon-

I hope you had a great Thanksgiving!

If you would be able to look at these permits sooner rather than later, that would be an immense help.
