Hi Mr. Hoffman,

Please revise the site plan to include the onsite well and septic system components. Ensure the site plan prints to engineer scale on a sheet of paper no larger than 11" x 17" before uploading it to the county system.

I've included a copy of the septic record. The as-built drawing is on page #2 of the septic record which shows the location of the well and septic components. Please utilize this page to plot the components on a scaled site plan. Should you have any questions, please feel free to contact me.

Regards,

Hank
